Job production

Advantages	Disadvantages		
 products are usually high-quality products can be made to meet the needs of individual customers 	 costs of production will be high labour costs may be high because job production often 		
Workers often get	requires skilled		
more satisfaction	labour		

Technology is being used more and more in the production of goods and services.

Technological development is making it possible for technology to perform skilled work and reducing the need for human resources

	Batch production		Flow production		
	Advantages	Disadvantages	Advantages	Disadvantages	
è y ob	 the needs of different customers can be met by making batches of different goods Batches are made to meet specific orders from 	 it takes time to switch production from one batch to another - costly May have to keep stock of raw materials to be able to switch 	 large amounts can be made Costs of production for each unit is low Machinery can be used, helping to recue costs 	 goods are mass- produced so quality may be low Expensive to set up a production line Large stocks of materials need to be kept which can be 	
n	customers It may be possible to use specialist machines to automate production	production • Less choice of products for customers • Tasks are repetitive for workers	 Technology can be used to change the products slightly to more are available for customers to choose from 	expensive If production stops at any point then production stops everywhere Jobs can be repetitive and boring	

4:2 Quality of Goods and Services

Importance of providing quality products

It avoids waste

If goods are not of a good quality they may not be able to be sold and so the producer has wasted money

It avoids recalls

If unsatisfactory products are made and sold they will then have to be recalled and the issue resolved at a cost to the manufacturer

Reputation and sales

Customers will not be happy with poor quality products and may shop elsewhere in the future

Disrupted production Production may be disrupted if quality is poor from the start

4:3 The Sales Process and Customer Service

Businesses are able to use a range of selling methods. **F-commerce:**

Cons to the business

Worldwide competition

Problems with delivering

and returning goods
